SABIN SINKS.

Another Great Failure Is Recorded and a Wealthy Senator is Caught in the Flood.

An Officer of the Pemona Relates His Story of the Florida's Collision and Sinking.

The Usual Budget of Interesting News Presented in a Condensed and Readable Form.

Another Crash.

Boston, May 12.—In regard to the failure of the Northwestern Manufacturing Car Co., of which D. M. Sabin is president, is said: Senator Sabin has been a heavy borrower for the car company from the capitalists of New York, Boston and many of the smaller cities in New England. He sold stock in many eastern cities and it is said one firm in Boston held nearly \$100,000 in stock and paper of the car company, but it is not expected the firm will be affected by the failure. Sabin has been east several times lately making sales of stock and negotiating loans. Not many months since a leading firm held nearly \$200,000 of this stock and paper.

New York, May 12.—Wheland Truck, an intimate friend of Senator Sabin, says no one in the east will be hurt by the failure of the Minnesota firm. No failures here justify the heavy decline of wheat are reported in the Chicago dispatches.

More News From the Florida.

QUEBEC, May 12.—The bark Theresa, with the survivors of the State of Florida, has arrived and has been taken charge of by the agent of the steamer. Officer Thompson is much depressed. The seamen are less reticent than the officers, but are unable to throw any light upon the cause of the disaster, having been abed when they collided. The Theresa had small accommodations and spare of rations and these were served from the Pemona. Nichols, who was on the look-out at the collision, ascribes the fault of the disaster to the steamer. He understood the signals. All corroborate the bravery of the engineers, Bain and Anderson, and testify to the activity of the second officer of the Florida, who was lost.

Captain Heyburn, of the Pemona, who makes the first statement coming from that vessel's crew, says he can give no reason for the cause of the accident. He had retired a half hour before the collision, which knocked him out of bed. Three minutes after he found himself in the sea without the ship. All hands were washed off while trying to lower the boats. The other two saved from the Pemona are Thomas Nicholson, of Shelburne, and Angel Rosa, of Trieste. Heyburn said that he did not see the Florida; didn't know she had gone down; didn't know what struck them; was in the boat house when the Theresa picked them up.

Another Statement.

New York, May 12.—Captain Munroe, of the City of Rome, states that on April 28, while pursuing six sailing vessels almost becalmed within two or three miles of each other, a ship was observed two or three miles distant, displaying signals, interpreted by me to be "ship wrecked." "Crew State," but no urgency signals were displayed, or, if displayed, were not seen, nor was the name or the nationality of the ship given.

A Family Matter.

NEW ORLEANS, May 12.—The arrest of Geo. Bird a day or two ago has led to the arrest of his newly made wife, Augusta Bird, in Algiers, and her father, Roswell Shepherd, his wife, two sons and a daughter. In their house was found a large lot of watches and jewelry, with a quantity of raw coin, bearing date of different years, and a full set of burglar's tools.

Only a Difference of Opinion.

DUNSM, May 12.—At a meeting of the nationalists at Waterford yesterday, Davitt argued that five years rent was the utmost that tenants would be required for the purchase of their holdings. Healy contended that one year's rent sufficient.

Washington Notes.

WASHINGTON, May 12.—The comptroller of the currency to-day received a letter from Scriba, the examiner in charge of the Marine national bank, of New York, saying that the bank is insolvent and that it will have to be placed in the hands of a receiver. The letter gives no figures or details. The examiners' report is expected to-morrow. The issue of standard silver dollars for the week ending May 10 was \$345,997, corresponding period of last year, \$165,500.

Canon, comptroller of the currency, formally entered upon the duties of the office this afternoon.

Senator Sabin leaves for St. Paul this evening.

Director Elwell said that "the reported synopsis of a rough report of Mr. Scriba

was founded on guess work and was not accurate. It is reported that he has no funds in bank. We have \$400,000 cash, also \$500,000 in real estate, making \$900,000 not shown in this statement. I believe the depositors will be paid in full."

Congressionalist.

WASHINGTON, May 12.—The chair laid before the senate a petition of the American medical association praying that steps should be taken to prevent the spread of epidemic diseases.

HOUSE.

A bill was introduced and referred, by Cox, of New York, to place General Grant on the retired list; by Hewitt, to modify the existing laws relating to duties on imports and internal revenue laws, and to enlarge the free lists; by Payton, to restrict the ownership of real estate in the territories to American citizens. It prohibits any resident alien who has not declared his intention to become a citizen of the United States, from acquiring, owning, possessing or holding any real estate in any territory; also to place lumber on the free list; also to reduce the rates of duties on sugar 50 per cent. By Bedford, to prevent the sudden contraction of currency. It prohibits any solvent national bank from retiring more than 10 per cent. of its entire earnings, and provides that any bank violating this prohibition shall forfeit its charter.

By Tucker, to repeal all internal duties on tobacco, and on brandy and wine manufactured from fruit; by Poland, by request, to regulate commerce among the several states.

The senate bill passed to prevent and punish counterfeiting within the United States, of securities of foreign governments.

The Cause of the Riot.

CINCINNATI, May 12.—The special grand jury appointed to consider the crimes in connection with the riot and burning of the court house made their report to-day to Judge Avery. The report treats at length of the causes leading to the riot and speaks of the common report that the jurors were bribed. There is general complaint that the courts permitted too many delegates, and that good citizens avoided jury duty to the detriment of a fair administration of justice. It also points out the defects in the criminal code. Four indictments were examined covering twelve different grades of crime, but nothing further will be divulged concerning these until the arrests have been made. Judge Avery, in receiving the report, made a brief defense of the courts and remarked that the public would judge whether the jury had done its work well or not.

Slaying the Christians.

DURBAN, South Africa, May 12.—Unsettled attacked the Norwegian mission in Hlabathi on the 4th inst. Three were killed. "Although the missionaries were spared, the marauders returned at night and killed all the Christians they could find."

WABASH UNDER.

The Wabash Road to be Placed in the Hands of a Receiver--A Temporary Arrangement.

The Choctaw Indians Organizing a New Order for Their Mutual Protection and Safety.

The Marine Bank Failure--The Depositors to be Paid in Full--Plenty of Assets.

A Receiver for the Wabash.

NEW YORK, May 12.—It is officially announced that the Wabash company will be placed in the hands of a temporary receiver, until the plans for placing the property on a solid basis is effected. It is estimated that ninety days will be required for the reorganization, in order to consolidate. The mortgage bonds will be exchanged for the first preferred stock. This action sets at rest the report that the Missouri Pacific would be called upon to take care of the Wabash debt.

The Grant Failure.

NEW YORK, May 12.—Nothing has been learned at the office of Grant and Ward this morning. Ward had not arrived at 11 o'clock. The report of the bank examiners will be forwarded to Washington shortly. Until this is made public no official statement of the bank's affairs can be obtained. The reports here this morning are of heavy losses in New York on account of the failures in Minnesota. No information confirming these reports can be obtained, and they are believed to be erroneous.

A New Order Among the Red Men.

ST. LOUIS, May 12.—Late advices have been received from the Indian Territory to the effect that trouble is brewing among the full blood Choctaws, in consequence of the law recently enacted by a national council, under which all criminals are removed to the consolidated court, which is remote from the point where the crimes are committed. It is alleged there is a secret society of full blood Choctaws, the members of which have sworn to protect each other, and they are bitterly opposed to the new law. An outbreak among them is feared and the Choctaw militia has been called out and stationed at different points, to meet any such contingency.

The Conference.

PHILADELPHIA, May 12.—In the Methodist conference Bishop Harris announced that the bishops had met Saturday in Bishop Simpson's room to consider the questions presented by the conference, and had agreed to the following: Owing to the slow action of two of your standing committees, concerning the establishment of two episcopal residences abroad, we are greatly embarrassed in expressing an opinion relative to the question, but yet feel it best to express our deliberate and unanimous judgment that it is not wise to fix an Episcopal residence at this time in Europe, India, Africa, or any of those countries, and if so decided this would not affect our opinion hitherto expressed, as to the number of bishops to be elected by the conference.

There was a big wreck on the Pittsburgh, at the junction just west of town, last night. Four freight cars jumped the track and in the smash-up that followed six freight cars were splintered. The Pittsburgh and Grand Rapids roads were blocked for three hours. There was also a disaster at Arcola and another wreck on the Richmond road south.

Barrett's circus came in from Bluffton yesterday morning, where they gave a very peculiar performance Saturday night. Tents were pitched near Clinton street and the circus people started out to see our manager. They struck a Calhoun street gaming room and were much enamored with the local "tiger." A brisk game was started and the Fort Wayne sports secured the circus boys out of about \$800. The whole gang was broke, and hustled about pledging watches, jewelry and other articles of value for a "stake," which they lost as soon as they set it in. Luckily for the party, to-day opened bright and pleasant, so that they caught a big crowd this afternoon and made enough to get out of town on. To-night the show will have another packed tent and carry away a barrel of money, for which they give questionable value.

A SLICK BURGLARY.

A Female House Cracker Robs the Residence of Rudolph Krull--Costly Dresses and a Gold Necklace Taken.

Between 9 and 10 o'clock last night the residence of Rudolph Krull, at 293 East Washington street, was burglarized. Four elegant silk and satin dresses were stolen, together with a fine gold necklace and other articles valuable alone to ladies. The daughters of Mr. Krull keep a military store at their home. Saturday a woman stopped at the store and examined all the bonnets displayed. The Misses Krull were somewhat puzzled at the owners of the female, but thought nothing of the fact that she carefully surveyed the premises until this morning. Last Friday the woman made herself obnoxious to the residents of the east and by entering their parlors and feigning insanity. She was attired in a black dress and wore box-toe boots. The officers have a description of the woman, who is notorious in the community. THE SENTINEL could give the name of the female house cracker, but prefers not to spoil the work of Captain Diehl and Marshal Meyer, who are after her. She has frequently been arrested.

Modern Science and Skepticism

What has Skepticism done for the world? Nothing but to suggest doubts. It has even suggested that Rheumatism cannot be cured. It has shown that Rheumatism can be got rid of. It has shown that Rheumatism is a blood disease, and has provided Arthrophenos, the remedy which completely cures it. It has proved that although the old doctors tried to overcome Rheumatism, Arthrophenos can reach it, and eradicate it from the system. It has proved that though those tormenting pains were so slow and obstinate, they can overcome in a little while by means of

Arthrophenos!

Don't be skeptical. If you have any doubts as to what Arthrophenos can do, write to some one whom it has cured. For instance, Rev. H. Denison, D. D., Pastor Third Congregational Church, of New Haven, Conn., the Rev. W. P. Orbit, pastor George St. M. E. Church, of New Haven, the Rev. J. E. Scaries, pastor Willott St. S. E. Church, New York City, Mr. Brummett, the well known candy manufacturer, of New York, S. G. Gay, Bigelow, of Connecticut, and many others, equally well known.

If you cannot get Arthrophenos of your druggist, I will send it express paid, on receipt of regular fee—one dollar per bottle. We understand that you buy from your druggist, but if he doesn't, it does not tend to try something else, but order at once from us as directed.

OFFICIAL PAPER COUNTY AND CITY.

The New York legislature will adjourn May 16.

CALIFORNIA is anxious to have the territory of Alaska organized.

JUDGE LYNCH is still in the field and seems to be increasing in favor.

GEN. GORDON will celebrate the Fourth of July at Khartoum. There may be plenty of fireworks.

An Indian pony furnishes the power for running the press upon which the Albion, Erie county, Pa., *Blizzard* is printed.

The Philadelphia *Times* cruelly remarks that "the whole Grant family seem to have been caught out in a shower of pitchforks."

CONTRACTS have been made for the transportation of 400,000 bushels of wheat from Chicago to New York, by water, at 6 cents per bushel.

THERE are now published in the United Kingdom 2,105 newspapers, of which England has 1,578, Wales 80, Scotland 181, Ireland 156, and the Isles 20. London alone has 401.

In speaking of the imprisonment of a Mormon missionary, at Vienna, the Chicago *Times* advises the Mormons to appeal to the government for protection for their ecclesiastical drummers.

LIBER suits are not a reliable means of making an easy fortune. An ex-corporator of Pittsburg had his character greatly damaged by a newspaper statement about him and the jury gave him 6 cents.

It is said that Gen. Grant has lost every dollar except the \$250,000 trust fund, the interest of which he draws, and is, too, in debt. The general who won so many victories on the battle field has been downed by the little ticker of Wall street.

The question has never yet been answered why, if Kellogg was so anxious to have his case investigated, as he pretended to the Springer committee, he took the first opportunity to have it thrown out of court on a mere technicality.

THE widow of Santa Anna is still alive and only fifty years of age. She lives very plainly in the city of Mexico. Santa Anna was president of Mexico three years before she was born. She was plighted to him in her cradle, and married him when she was thirteen.

The coalition judiciary of Virginia is fulfilling its appointed mission. By virtue of the decision of a coalition judge, Boss Mahone will name and rule all the election officers of Virginia at the presidential election. But that won't make Virginia republican. It can't be done.

The attention of Mr. Blaine is called to the following clipping which appeared last Saturday as the head lines over an article in the Indianapolis *News*: "Unreliability of the presidential tables that have been printed thus far—the only thing certain is that Blaine is losing ground."

An exchange says that the pivotal states in the presidential election are New York and Indiana. Of twenty democratic representatives from New York fourteen voted for the Morrison bill and six against it; of the nine democrats from Indiana the whole number voted for the bill. Yet we are told that reform is not popular in the pivotal states.

LATELY several republican papers have shown great anxiety in regard to what they are pleased to call the lost boom of Joseph E. McDonald. They fear that the democracy of the state have deserted the man who first was supposed to have the support of this people. The anxiety and fear that these people evince is certainly remarkable. Generally they are not so condoling nor so sympathetic. Probably the fact that the boom is not lost nor that it is even weakening has something to do with the matter.

TALLULAH, Ga., has two women deputy revenue collectors.

JOHN BAULTREE, a barrister of Portage la Prairie, has ascended to Oregon with \$70,000.

JAMES SHERIDAN, a policeman, is the man who writes the pointer articles for the *Gazette*.

PAUL C. DUNNING, who was governor of this state in 1848, died at Bloomington last Saturday.

"The Mute" is the name of a new organ of opinion published at Spokane Falls, Washington Territory.

THE Marine national bank of New York was appropriately named. "Twins" run by a family of Fishes. "Twins" really. "Twins" a financial aquarium.

It was rumored on Saturday night that Ferdinand Ward, of the lately well known firm of Grant and Ward, attempted to commit suicide, but was prevented by friends.

ONE of the remarkable occurrences of Saturday was the discharge of seven government clerks at St. Louis on the grounds that they did no work. The clerks want to know what they were expected to do.

THE Missouri *Republican* says: "The Chicago *Tribune* begs the democrats to run two candidates this year, as they did in 1860. The request is unnecessary for the democrats have already resolved to run two. They will run a good democrat into the White House and a bad republican up Salt river. No thanks needed."

THE North German *Gazette*, commenting upon the recognition by the United States of the African association of the Congo, asks: "Who and what is this association? Its statutes are not published, and it is not even known whether it possesses any corporate rights. Who is the association in the eyes of the law? From whom has it acquired its rights?"

CHICAGO *Times*: "One of the curiosities of the times is the political statistician. He has lately been engaged in figuring up presidential candidates, and the results are so various that persons with any preference whatever cannot fail to be suited. The time when figures wouldn't lie has evidently passed. The general mendacity of the period has been too much for their love of truth."

LABOR troubles exist in all portions of the country. Manufacturers insist on such a reduction of wages that the workmen cannot support their families upon the pittance received. The result is "strikes" everywhere. If the existing tariff and other laws are proper and just, and if the manufacturers are compelled to cut the wages, is it not time that new methods should be employed and a thorough reform inaugurated?

THE dispatches of Saturday announced that Jay Gould had opened a subscription for the relief of General Grant. Mr. Gould has a perfect right to do what he may please with his money but the people generally will not take any stock in this affair. General Grant has been handsomely provided for and yet has what would be considered a fortune out here in Indiana. What he has lost has been lost in gambling in stocks and a first class gambler never whines over his losses. Mr. Grant was a great general but that is no reason why the people or its representatives should pass further appropriations or bills of relief for him. The placing of him on the retired list with a general's pay is a wholly different matter.

An exchange says: "Minnesota offers an inviting field for missionary labors on the part of the protective tariff people. A thoroughly trustworthy republican state heretofore, its representatives refused the other day to support the pig iron idea of economy and voted squarely with the friends of tariff reform. Protection costs the people of Minnesota millions of dollars per annum, and they are intelligent enough to understand it."

What is true of Minnesota is true of many other states. The question of a protective tariff is one which is agitating the people and one which will cause a revolution in the politics of the country this fall. Laboring men, of all classes, business men, farmers and manufacturers are all coming to the belief that it is high time this matter had attention and that reform is badly needed. Let the people's will be done.

It is hardly fair to the democratic side of the house of representatives that a portion of its time should be allotted to those democrats who voted against the consideration of the Morrison bill; but, then, it may be well enough to give them an opportunity to explain why they voted with the republicans in opposition to the consideration of an important measure that had met the approval of the members of a democratic caucus. It is hoped that the democratic members from different states, who voted against the consideration of the bill, will yet see their way clear to a change of position on this question of tariff reform. The people demand a readjustment of the present rates of taxation and he who halts or falters now will incur their displeasure. Revolutions never go back-

ward. The days of tariff monopoly are numbered. All unnecessary taxation must be removed.

Palpitation or rapid beating of the heart followed by periods of complete cessation, is caused chiefly by nervousness and bad blood. If the disease is neglected it is liable to result seriously, especially at a time of sudden excitement. Purify the blood, strengthen the muscular and nervous system, governing the heart, by using Dr. Guyot's Yellow Dock and Sarsaparilla, and you will soon be rid of every trace of the affection.

The indications for the lower lake region as reported for THE SENTINEL by the weather bureau at Washington are as follows: Partly cloudy, rainy, variable winds, shifting to easterly, stationary temperature.

In one of our interviews Saturday a few errors were made. We refer to the one with Mr. Munson. He spoke of the opposition in the council to purchasing the canal of the state before the present owners did so. A gentleman present mentioned the names of some of the opponents, but it was not intended to convey the impression that Mr. Munson mentioned any names.

Yesterday the Fort Wayne club won the first game of the season by a score of 5 to 4. A great crowd assembled to witness the game with the St. Louis, and some very fine work was done. Darrah, the new pitcher, occupied the box during seven innings, but was hit freely. Better work may be expected from him hereafter. Umpire Young was struck by a foul ball and was rendered unconscious, but in a short time recovered and finished the game.

General Manager A. A. Talmage and First Vice President Hays have issued a circular, which now hangs in the Wabash shops, taxing all employees receiving over \$50 per month fifty cents per month, and those receiving under \$50 per month thirty-five cents for the purpose of establishing a hospital. All employees wounded or stricken down from other causes will be taken to the hospital and all expenses paid. The order takes effect June 1.

Early Friday morning a gang of workmen on the White Water railroad, a branch of the Fort Wayne, Cincinnati and Louisville railroad, began the erection of a large coal shed over the entire portion of that part of Market street lying west of the public square at Connersville. The citizens had not the least hint of the proposed action, as the timbers had been felled at some other point on the road. The city council held a hasty meeting and ordered the marshal to pull down the structure, which was then well under way, if the workmen refused to do so, which, of course, they did, and he at once proceeded to carry out the will of the meeting. The workmen then boarded a passing train and avoided arrest for obstructing the streets.

A COOL COON.

Milton Sawyer Takes a Big Dose of Arsenic to Quiet His Love--His Great Desire to go to Jordan.

The usually quiet and somewhat classic shades of Barr street were disturbed yesterday and dusky belles and bravo coons flew around in lavish disorder. Milton Sawyer, a lame negro, was the cause of the commotion. Milton manipulates a razor for Mr. Ridley, on Barr street, when he is sober. Of late Mr. Sawyer has been drinking pretty hard and was badly broken up yesterday. In the afternoon he saw his sweetheart, lurching on the arm of another coon, and, of course, life no longer charmed the giddy Milton, who went straight to Mordhaust's drug store and purchased a big dose of arsenic, "to kill rats," he said. He swallowed the drug at the Barr street barber shop and the inmates gave the alarm, as the coon promptly straightened out. He was taken to the City hospital, where an emetic had to be forced down his throat, so persistent was he in his determination to investigate eternity. Milton is better to-day, thanks to science and Drs. Dills and McCausland.

A GREAT SNAP.

The Officers of the People's Railway Get Away With Funds--The Scheme to Make Everybody a Railroad King Out Short.

But a few months ago Indianapolis parties sent out circulars telling in nice language how a People's railway could be built by cash subscriptions and everybody be made a railroad king. The SENTINEL predicted the snafu was a fraud and warned the people to avoid it. A few suckers caught on, however, and now are sorry. Treasurer Kennedy, of the People's railway, is in trouble with a few of his sharp assistants. Kennedy has collected ninety odd thousand dollars of the people's money toward furthering the project, and according to the San Francisco Argonaut, can account for only \$16,000. He administered upon the stock and appointed a directory of San Francisco gentlemen, but they insulted him by demanding an account of his trust and he Tobinized them, that is he discharged them and appointed another board. This one suited him better and things were moving along peacefully, when a rumor says, he was arrested. It is not known whether any of his cohorts met the same fate.

STOLEN STEEDS.

Three Horses Led Away From the Farm of John Ulrich Last Night--Sheriff Schiefer Notified of the Bold Theft.

This morning John Ulrich, a farmer living four miles from town on the Arcola road, walked to town and hunted up Sheriff Schiefer. Mr. Ulrich told that last night he turned into a pasture near his house three horses, one a sorrel nine years old, the second a black nine years old and the third a bay fourteen years old. The pasture gates were securely locked, but this morning they were battered down and bridles were missing from the stable. To satisfy himself that the animals were not about, a search of the neighborhood for miles around was made by a posse of farmers, who volunteered their services. Two of the horses were fine spirited animals and worth \$800. The other horse was worth \$75. Sheriff Schiefer took a description of the stolen steeds and with Mr. Ulrich, examined all the circus horses without avail. Sheriff Schiefer then sent his men out to work the country for a clue and sent cards to the sheriffs of surrounding counties. Mr. Ulrich will offer a reward for the return of his horses.

SAD SUICIDE.

The Wife of a Prominent Merchant of Huntington Takes Her Own Life.

The neighboring young and thriving city of Huntington was thrown into a state of excitement yesterday by the suicide of Mrs. John Pocock, wife of a member of the firm of Stalts & Pocock, well-known grocers of that place. For several months past the lady has been in very poor health, and had become very much discouraged because of the fear that she would never recover. Her physicians and friends tried to disabuse her mind of this idea, but to no purpose, and she would frequently become very melancholy and despondent. Yesterday morning, however, she appeared to be much better and ate breakfast with the family. Mr. Pocock suggested that they should go out for a short walk in the afternoon, to which she assented, and later he went to church, leaving her in the care of the servant. The lady laid down on the bed with her babe, only five months old, and the girl went up stairs to attend to her duties. In a few moments she heard a noise down stairs and, rushing down, found the lady lying on the floor in a pool of blood. Help was summoned and it was not until she had been laid on the bed that the horrible gaping wound in her throat was discovered. With a razor she had severed the jugular vein, causing almost instant death.

The lady was a daughter of Mr. D. Root, of Antwerp, Ohio, and was a very intelligent and accomplished woman. Her age was twenty-nine years. The cause of the rash act can only be ascribed to temporary insanity, as her family relations were of the most pleasant character. Mr. Pocock is well known to many of the employees of the Wabash road.

Decree Against the Wabash.

A decree has been entered in the federal court in favor of David J. Tyron, jr., Benjamin F. Ham and other holders of interest warrants against the Wabash railway company for \$1,100,110. Interest on all the warrants was allowed from May 1, 1883, and the judgment was made a lien on the property of the Toledo and Wabash railway in Ohio and

K. H. Wade, superintendent of transportation of the Wabash road, with headquarters at St. Louis, G. W. Stevens, superintendent of the eastern division, with headquarters at Peru, Ind., and W. H. Knight, commercial agent of the same road at Detroit, were in the city Saturday to inspect the company's property. It is evidently the intention of the new management to increase the company's shop facilities here.

L. H. Patterson, Copake, N. Y., takes a true view of the situation. The letter runs: "For five years have suffered intensely from rheumatism of my chest. Would be in the doctor's hands for two and three months at a time. At the advice of my son I tried Athlophoros. Imagine my surprise when I was relieved of all pain after taking one bottle. It saved me quite a sum of money, and what is better, I did not have to endure weeks of agony."

Conductor George Minor, of the Grand Rapids, is laying off on account of sickness.

"Oh, I do feel so nice!" said a young girl of nineteen years. "I don't feel as if I had a head or a stomach, or anything." And yet headaches, backaches, stomach aches and many other aches, swellings, sores, etc., troubled her before she took Dr. Guy's Yellow Dock and Sarsaparilla. This remedy restored her to perfect health, as is indicated by her clear complexion, smooth skin and bright eyes. It will relieve all ailments peculiar to female life.

Concentrate Vitality.

All excitants, to radically cure, must be innocent. The art consists in continuing their use until matters in the system contrary to health are removed. Health finds happiness in the mere sense of existence.

Brandreth's Pills stimulate the blood so as to enable nature to throw off all morbid humors, and cure disease, no matter by what name it may be called.

The secret of recruiting the vital principle is discovered in Brandreth's Pills, because they remove what holds it in check. It is believed that they possess the elements of vitality. Heat, healthy animal warmth, is certainly increased by the use of this wonderful medicine. Provided the great organs are not irreparably injured, there is no disease Brandreth's Pills will not cure. The true art of healing is to assist nature to throw off disease—to concentrate, as it were, the whole vitality of the system to eject the enemy that has fastened on a part.

Got Brandreth's Pills! Be put off with none other, and follow the printed directions and health will surely bless you.

The youngest child of William Fry, on Creighton avenue, is ill with diphtheria.

It is no Wonder

that so many people sink into untimely graves when we consider how they neglect their health. They have a disordered liver, deranged bowels, constipation, piles or diseased kidneys, but they let it go and think they "will get over it." It grows worse, other and more serious complications follow, and soon it is too late to save them. If such people would take Kidney-Wort it would preserve their lives. It acts upon the most important organs, purifying the blood and cleansing the system, removes and prevents these disorders and promotes health.
